THE PROBLEM

Business owners face these common barriers stopping their business growth:

A lack of relationships and network required to obtain needed resources.

Inadequate information and knowledge to effectively resolve business issues. And insufficient access to capital to support business growth.

The COVID-19 pandemic has had a significant, negative impact on business operations.

OUR SOLUTION

EMPOWERING SMALL BUSINESS

Urban Impact's programs work with under-resourced entrepreneurs to help them overcome challenges in operating and growing their business.

Business training provides practical knowledge, information and tools to equip entrepreneurs to resolve the challenges they face.

Mentors work one-on-one to help entrepreneurs set objectives, create plans, establish accountability, and provide encouragement. Coaches provide subject matter expertise to help navigate business issues.

Relationships with funding partners can provide needed capital for growing enterprises.
